Alorzuke**

Finance Director

UGANDA

Challenging the status quo of what is possible for the coffee production in Uganda. Our vision is bold, but so is our approach. Mountain Harvest is driven by the belief that what tastes best in your cup can and should be sustainable for the environment and provide a living income for farmers. To achieve this, we are working side-by-side with farmers to produce high-quality Arabica coffee that fuels a higher quality of life for farmers, their families, and the soil beneath their feet.

Kenneth Barigye

flouci

TUNISIA

Our app provides free banking and wallet services for every person and enables people to access quality financial services over time based on their profile, from credit to investments, and insurance. Our product allows for that through the very first 100% electronic KYC to open bank accounts without physical presence, removing the biggest barrier to entry for this target population. Our product is also the first of its kind to be available in the local dialect and aims to make people financially literate and included, as well as allow them to build a credit history and gain access to finance. We use technology and work with local regulators to build a product that is inclusive and accessible to most.
